Lamp of Wisdom (Al-Hikma)

PUBLISHED BY
THE GRADUATING CLASS

AL-HIKMA UNIVERSITY
BAGHDAD, IRAQ

Dedication

Faithful dedicated service is often taken for granted until a time of recognition and appreciation arrives. This is the way, we, graduates of 1964, feel about our Dean of Students, and wish to dedicate this year's *Al-Hikma* to Rev. Thomas B. Mulvehill, S.J.

For eighteen years he has served in Iraq. He has faithfully discharged the duties of teacher of English, Religion, and Mathematics at Baghdad College (1946-1956), and has efficiently served as Administrator, as well as Professor of Theology and History at *Al-Hikma* University (1956 - 1964).

Presently, as Dean of Students, his efficiency, solicitude and kindness are deeply appreciated by all; as Professor of History his lectures vividly relive the great deeds and events of the past that have great influence on our present.

May God grant him length of days so that he can continue to influence our lives and to render faithful service for many years to come !

STUDENT MEETING

The President's Page

To the Members of the Class of 1964:

As you finish your years of study and preparation at Al-Hikma, you face many problems in a world that is breaking out of old ways of thinking and living and is developing towards new ideas and new modes of life.

Although the problems are large and real, you are equipped with the intellectual and moral training to confront them as opportunities for service rather than as obstacles to progress.

I am confident, therefore, in your desire and your ability to surmount all the difficulties you encounter and to fashion out of them a life of service to your country and to your God.

May God bless you on the thresh-hold of a new stage in your life!

JOHN P. BANKS, S.J.

GRADUATES

1964

ALI AL-QARAGHULI

Baghdad, Iraq

B. Sc. in Civil Engineering

Smooth confident Ali came to Al-Hikma from Adhamiya. He was interested in all campus activities, and held office in the Student Union. When not reading political and philosophical books, he relaxed at a game of ping-pong or in the swimming pool. He hopes to do graduate studies in Structural Design in the U.S.A.

ANIS M. BARGHOUTI

Ramallah, Jordan

B. Sc. in Business Administration

Amiable Anis arrived on the University campus from neighboring Jordan. He readily made friends, and influenced people through the Debating Society, S.A.M., and the Al-Jami'i Staff. Music and sports kept him fit. If he succeeds in obtaining a scholarship he will further his studies in Economics; else will turn to managerial work.

ANTWAN KHAWWAM

Baghdad, Iraq

B. Sc. in Civil Engineering

After attending Baghdad College, Antwan matriculated to the campus at Zafaraniya. Intensive and exacting in his work, he would like to continue studying Structural Engineering. His list of accomplishments was long in sports and on the platforms of the Debating and Dramatic Societies. He also worked in the library, and was a Sodalist.

BASIL KATTULA

Baghdad, Iraq

B. Sc. in Civil Engineering

A quiet competent member of the class, Basil studied hard and accomplished much. His favorite subject was Structural Design, which he hopes to pursue further in graduate studies abroad. He collected stamps, played volleyball and ping-pong, and for outside interest joined the Society for the Advancement of Management.

FAHMI AYAR MICHAEL

Baghdad, Iraq

B. Sc. in Civil Engineering

Spirited and interesting at all times, Fahmi's greatest delight was to kick a goal on the football field. He expects to continue to score in all his endeavors, especially in graduate studies abroad. Music, ping-pong, reading, and track filled out his leisure time.

FAROUK MISHU

Baghdad, Iraq

B. Sc. in Civil Engineering

Farouk matriculated to the Zafaraniya campus from Karrada Sharqiya. His diligent and careful work was always an inspiration to others. He loved to listen to good music when not at the drawing board. After graduation he elects to work in Baghdad.

FARQAD AL-SALMAN

Baghdad, Iraq

B. Sc. in Business Administration

Magnanimous Farqad entered Al-Hikma from Baghdad College, and while here distinguished himself as an outstanding member of the Music club, the Al-Jami'i Magazine Staff, the Debating Society and S.A.M. (Society for the Advancement of Management). His brilliant piano playing will be recalled with delight. He expects to be an Industrial Manager in the near future.

JAMAL RAHMANI

Baghdad, Iraq

B. Sc. in Civil Engineering

Calm composed Jamal exchanged the B.C. campus for Zafarania four years ago, and has never regretted the move. While learning his profession as an engineer, he occasionally relaxed by hitting a ping-pong ball or by listening to good music. Concrete is his specialty. He feels competently prepared for work in Baghdad.

KAMAL DINKHA KEWSON

Kirkuk, Iraq

B. Sc. in Business Administration

KDK was often seen on campus with camera in hand. For hobbies, he lists : Photography, Books and Music. For sports : basketball, football, baseball and track. His versatility also brought him membership in the Sodality, Dramatics, Debating, Yearbook and Management activities. His ambition is for success in Drama and the Motion Picture Industry.

KEYUMARTH SULTANI

Teheran, Iran

B. Sc. in Civil Engineering

Capable, practical Keyumarth's early years were spent in Iran before entering the Baghdad school system. He has enjoyed four successful years on campus and can look back on a job well done. When not attending the Scientific Society lectures he exercised at volleyball and track, and enjoyed reading, languages and painting. He will continue studies in Germany or the USA.

MAAN HAMID JAWAD

Baghdad, Iraq

B. Sc. in Civil Engineering

Genial and well-mannered Maan found many outlets for his talents at Al-Hikma. His interests included astronomy, photography and sports. He surveyed the tennis courts as an aid to construction. The Debating, Scientific, and Music clubs claim him as a member. His desire for the future is graduate studies in Structural Engineering in the USA.

MUNDHIR NAMAN BUBBOSH

Baghdad, Iraq

B. Sc. in Business Administration

Tall talented Mundhir came to Al-Hikma via Baghdad College. He was a busy man on campus and made many friends. He will be remembered as a Sodalist, a debater, and as a worker on the staffs of the Yearbook, Al-Jami'i, and the library. His stamp collection impels inspection. He may head for further studies in Finance.

MUWAFFAQ EDWARD METTI

Baghdad, Iraq

B. Sc. in Civil Engineering

Quiet mild-mannered Muwaffaq travelled to Zafaraniya through the portals of B.C. He was prominent on campus supporting the sports program enthusiastically. He indulged in ping-pong and good music. He was a member of the Science Academy. Concrete and sanitation are his chosen fields for further study in England or the USA.

MUWAFFAQ T. SIMANI

Baghdad, Iraq

B. Sc. in Civil Engineering

A class leader in every respect, Muwaffaq was an outstanding student at the university. He played a prominent role in the Sodality, the Scientific Academy, and in S.A.M. His leisure moments found him playing ping-pong, or throwing a basketball, or playing chess. After graduation he would like to obtain his Master's degree, and then teach and design.

NABIL AZIZ

Baghdad, Iraq

B. Sc. in Business Administration

Mosul's gift to Al-Hikma, Nabil has enjoyed his four years on the Zafaraniya campus. As an outlet for his zeal and energies he joined the Sodality, S.A.M., and the Debating Society. He loved to read in the library, and could always be counted on for support at all social functions. With a bent towards Economics he will make a fine business manager.

NABIL YUSUF FRANCIS

Baghdad Iraq,

B. Sc. in Business Administration

Generous cooperative Nabil was noted for his unruffled temperament both at B.C. and at the University. He gave generously of his time to the Sodality, Library and Yearbook staffs, as well as to S.A.M. He fully supported the sports program. His favorite subject, Statistics, will be his specialization in future studies in the USA.

NADIM SAIGH

Baghdad, Iraq

B. Sc. in Business Administration

Pleasant and affable at all times Nadim won many friends at Al-Hikma. His interests included S.A.M., the Sodality, Debating and the Music Club. He read much and enjoyed a good picnic. Marketing and Industrial Management beckon him on to further studies abroad.

NASRAT YUSUF NASSIR

Baghdad, Iraq

B. Sc. in Civil Engineering

A genial gentleman from Karrada via B.C., Nasrat found many outlets for his talents at Al-Hikma. He was a faithful member of the Sodality and the Secretary of S.A.M. He participated in track, photography and ping-pong. Surveying and Structures have special appeal that call him to graduate studies, probably in the USA.

NATIQ AL-DUHI

Baghdad, Iraq

B. Sc. in Business Administration

Natiq is Jaffariya's gift to the campus. Quiet and attentive he gained much from his courses that he can apply to his chicken farming and animal husbandry. Marketing is his special interest; table tennis his favorite relaxation. Already a business man he is undecided about future studies.

NIJYAR H. SHEMDIN

Zakho, Iraq

B. Sc. in Business Administration

Nijyar prepared for Al-Hikma by prepping at Robert College and B.C. He has made for himself an enviable record while on campus. He was first president of S.A.M., and the ace photographer of the Yearbook staff. For a change of pace he liked to read and play tennis. Business enterprises will demand his attention immediately after graduation.

PHENUEL PHILIP

Baghdad, Iraq

B. Sc. in Civil Engineering

Every class has its outstanding athlete. Phenuel was both athlete and scholar. He will long be remembered for his feats on the football field and on the track. His voice was also heard in sharp debate. After graduation he plans special studies in Structures abroad; otherwise he will join a local firm.

ROBERT S. MILLER

Staten Island, New York

B. Sc. in Business Administration

All American Bob attended Notre Dame International College, Rome, and the American Community School, Beirut before arriving on the Zafaraniya campus. This genial gentleman lent his talents to Dramatics, Music, Debating, S.A.M., and the Yearbook. Painting and ship-building were his hobbies. He expects to return to the USA or studies in Industrial Engineering.

SABAH HARUTUNIAN

Baghdad, Iraq

B. Sc. in Civil Engineering

Silent suave Sabah studied steadily and has many achievements to his credit at Al-Hikma. In the classroom he preferred Philosophy and Theology. The Sodality, Music Club, as well as the Scientific Academy and Debating Society claim him as a member. Basketball and track kept him physically fit. Already a student member of the American Geophysical union, he plans studies in Soil Mechanics in the USA.

SAMI ANDREA

Baghdad, Iraq

B. Sc. in Civil Engineering

A man with a mind for details, Sami enjoyed every year spent at B.C. and Al-Hikma. He was a staunch Sodalist and a charter member of S.A.M. For hobbies he was soothed by sweet music, when not pursuing color photography. Special studies in Concrete await him in the USA.

SAMI HALATA

Baghdad, Iraq

B. Sc. in Civil Engineering

Not easily perturbed by any problem, Sami proceeded to enhance at Al-Hikma the record he made at B.C. He was a good Sodalist and a member of the Science Club. He liked good music and much travelling. He hopes to travel to England for advanced studies in Soil Mechanics and Structures.

SAMI OTHMAN

Baghdad, Iraq

B. Sc. in Civil Engineering

Jordan's gift to the campus was well received by Al-Hikma. Sami was prominent in football and track. He proved himself a quiet genial companion at all times. He did much outside reading and is greatly interested in politics. After graduate studies in Structural Engineering Sami plans to return to work in Jordan.

SAMIR HANNA SHAMOON

Baghdad, Iraq

B. Sc. in Civil Engineering

Talented and artistic Samir was always on call for a sign or a poster. He was a member of S.A.M., the Scientific Club, as well as on the staffs of the Yearbook, and Al-Jami'i magazine. When not painting, singing Arabic songs, or driving his car, he could be found playing basketball or ping-pong or running around the track. After a period of work he will continue his studies abroad in Structural Design in Concrete.

SAMIR SADIQ QATTAN

Baghdad, Iraq

B. Sc. in Business Administration

Samir gave his best efforts to studies and sports while at Al-Hikma. He won success as a member of S.A.M., the Music Club, the Dramatic Society, and the Yearbook Staff. Track, baseball, basketball, and football tested his athletic prowess. His interest in Insurance and Economics lead him to graduate studies in England.

SHIBIB ELIAS HALABU

Baghdad, Iraq

B. Sc. in Civil Engineering

Serious-minded and determined Shibib diligently pursued his studies while at Al-Hikma. He was a prominent member of the Scientific Club and of S.A.M. Intramural basketball and ping-pong were favorite forms of exercise. He enjoyed classical music. He intends to continue studies in Structural Engineering in the USA.

TAHA AL-SALMAN

Basra, Iraq

B. Sc. in Business Administration

From Palestine Road, Basra, to Bournemouth, England is the approach to Al-Hikma used by Taha. He was an ardent supporter of all teams and at times indulged in table tennis, volleyball, football and swimming when not listening to classical music. Taha was a charter member of S.A.M. He will pursue a Master's degree in Business Administration in the USA.

USAM AL-ABACHI

Baghdad, Iraq

B. Sc. in Business Administration

Usam was a thoughtful member of the class who made many significant contributions to class harmony and good-fellowship. He was a charter member of S.A.M. Personnel Management claims the favorite subject spot with him. He was often seen playing table tennis. After graduation he hopes to join the Agricultural Administration in Baghdad.

VAHAK H. MESROPIAN

Baghdad, Iraq

B. Sc. in Civil Engineering

Quiet and attentive to every detail Vahak attended the Armenian School before entering Al-Hikma. His photographic work is outstanding. Reading and ping-pong relaxed him for more intensive studies. He was a member of the Scientific Club. After working for several years after graduation, he will then do graduate work in Pre-stressed Concrete.

VRAJ HARUTUNIAN

Baghdad, Iraq

B. Sc. in Business Administration

Versatile Vraj prepared for Al-Hikma by attending Baghdad College. His talents and activities were legion : Debating, Dramatics, S.A.M., Music, and Yearbook Staff. He loved a good book and cross word puzzles. Once in a while he swung a baseball bat. He will continue his studies in England in pursuit of a degree in Chartered Accountancy.

WAYIL HINDU

Baghdad, Iraq

B. Sc. in Business Administration

A genial gentleman with a fine competitive spirit and sense of balance, Wayil made many lasting friends on campus. The baseball, basketball, football, and track, he learned at B.C., he continued at Al-Hikma. He was a faithful Sodalist, a debater, a member of S.A.M., and the Yearbook staff. He hopes to go abroad to England or to America for further studies in Management.

WILSON BUTROS ISHAQ MIRAZIZ

Baghdad, Iraq

B. Sc. in Business Administration

Pleasant, pleasing and efficient at all times Wilson entered Al-Hikma from B.C. He was a member of the Sodality, S.A.M. and the football team. His work at the Library in Baghdad didn't allow for extra time on campus, but he squeezed in many a game of ping-pong, and patronized the Music Club. He intends to pursue higher studies after graduation.

THE SOCIETY FOR THE ADVANCEMENT OF MANAGEMENT

THE SOCIETY FOR
THE ADVANCEMENT OF MANAGEMENT
INCORPORATED

Charter of the A.M. Lederer Chapter, Al-Hikma University A Grant

To further the stated purposes of the Society for the Advancement of Management in accordance with its Constitutional Provisions, this Charter is issued to evidence and confirm the establishment of a Student Chapter to be known as the A.M. Lederer Chapter, Al-Hikma University, on this, the 1st day of September, 1965.

A Profession of Faith

Acceptance of this Charter by the Student Chapter Members named below symbolizes their profession of faith in the social values of that Management which seeks to base its action on facts; that insists upon the perpetuation of the human spirit and the dignity of the individual in all its relations; that increasingly strives for development of the skills of democratic administration.

Student Chapter Charter Members

Abdul Wahid Gatta Ahmad Mekhriz Arshak Janyanian Boghos Boghosian
Abdullah Aliyeh Aris Baryshuti Aymen Bashir Delair Muhammad
Ahmed Sami Aturanik Aileman Basil Abba Delkhawaz Jaf
Ahmad Orshanian Aram Nishran Basil Mattala Elias Abda

Each member is accorded the privilege of participating in the activities of the Society as an individual and as a member of the Student Chapter. These privileges are extended to those who may be admitted to membership in the Chapter in the future.

To maintain this Chapter charter in force the above members have agreed to carry on the following minimum activities:

1. ELECTION OF OFFICERS ONCE A YEAR.
2. THE HOLDING OF AT LEAST FOUR REGULAR MEETINGS A YEAR.
3. SUBMISSION OF REPORTS ON ACTIVITIES TO NATIONAL HEADQUARTERS THROUGH THE FACULTY ADVISOR.

Student Chapter status has been granted upon the recommendation

Alfred Johnson, Sec.

FACULTY ADVISOR.

Victor S. Sarrak

PRESIDENT

DRAMA GROUP 1963-1964

This year the Dramatics Players Group under the direction of Mr. Jordan, Moderator, has arranged a lively program of Dramatic Readings beginning with J. M. Barrie's "The Will". A full production of a one-act play, and a program marking the 400 anniversary of the birth of William Shakespeare are planned for the spring.

Dramatics

The Music Club meets most Fridays with Moderator, Fr. Ibach, to enjoy a relaxing cultural session of classical and semi-classical music. Occasionally, group trips are made to the cultural centers of the city at Khuld and Al-Shaab Halls. Student pianists and instrumentalists lend their talents to campus activities.

Arshak instructs Elham, while Kamal checks film

Fr. Nash explains the developing process

PHOTO CLUB

The Photo Club, with Fr. Nash as Moderator, enjoyed a very successful first semester. The fundamentals of photographic angles, developing, and printing were stressed. Much of the Yearbook work was done by the Photo Club. During the second semester many more "shutter bugs" are expected to join the Club.

Nijyar says "Ready" !

ROOTES FABULOUS 1964 RANGE OF QUALITY CARS

HILLMAN IMP

To-day's most advanced light car. Rear-mounted, aluminium die-cast, overhead-cam-shaft engine gives 40-45 mpg. All round independent suspension. Room for four with luggage space.

HILLMAN SUPER MINX

Superb elegance and comfort . . . with 80 mph performance . . . front disc brakes for extra safety. Also the **New Hillman Minx de Luxe Saloon**. Front disc brakes . . . no greasing points. And the new-styled double-purpose **Husky**.

HUMBER SUPER SNIPE

Elegance and luxury with smooth 100 mph performance from a 6 cyl. 3 litre engine. Front disc brakes give instant stopping. Borg-Warner fully-automatic transmission or overdrive extra. And the distinctive, economical **Humber Hawk**.

HUMBER SCEPTRE

Humber luxury in a sports saloon. Superb all round performance from a 1.6 litre engine. Self-cancelling overdrive standard on top and 3rd gears. Built-in ventilation and screen washers.

NEW SUNBEAM RAPIER

The exciting Rapier gets a new look. More power . . . no greasing points for easier servicing . . . improved suspension . . . servo-assisted braking . . . new colour schemes.

SUNBEAM ALPINE

The brilliant 100 mph Alpine, with front disc brakes, comes to you in two versions: **Gran Turismo Hardtop** with streamlined rear compartment. And the **Sports Tourer**.

A better buy because they're better built

FACIT CALCULATOR

direct back transfer

16-figure capacity

Facit CM2-16 is the perfect calculator for the general office. Solves the little problems as fast as they come up — yet 16-figure capacity and such time-saving features as direct back transfer from both product and multiplier registers and tens transmission throughout make the CM2-16 ideal for complicated 3-factor problems. Ultra-simple 10-key "adding machine" keyboard that anyone can master in 15 minutes.

Basic material: Swedish steel
Direct back transfer
Easy to move and carry
Elastic touch
Elegant design and Viking
grey colour

The Priceless Extra of Experience

Think for a moment of the many choices we make in life which are determined by our confidence in somebody's experience.

Choice in important things, like selecting a doctor, a lawyer, or a friendly advisor. In less important things, like having something repaired. In even minor, everyday, personal problems, where we want wise guidance.

So deeply ingrained is this basis for choice in all our actions, it comes as no surprise when so many experienced travelers say that this is why, when they fly overseas, they put their trust in Pan American.

For Pan American is "The World's

Most Experienced Airline"—in years of flying over the seven seas—in every type of transport plane—in fine mechanics who maintain these planes—in pilots and engineers who fly and navigate them—in services to care for you before you embark, while on your flight, and when you land. All under the high discipline of U. S. flight standards.

A Pan American traveler is a *confident* traveler, reposing his trust in these years of experience in getting you from here to there—comfortably, dependably, serenely.

It's a great experience to fly with experience on Pan American.

Beautiful Switzerland home of Rolex Watches

The story of **ROLEX**

**MEN WHO GUIDE
THE DESTINIES OF
THE WORLD
WEAR
ROLEX WATCHES**

People all over the world are now familiar with photographs like the one above which have been associated with Rolex advertising during a decade. An important decade for Rolex.

These photographs represent typical Rolex owners. But, of course, we are not able to mention names nor show recognizable pictures, because Rolex owners include members of royalty, heads of state and great service commanders. Anyone who cares to visit the

Rolex head office in Geneva can see the proof of this in the signed photographs and testimonials from some Very Important People, which line the walls of the Founder's office.

WHY do these men wear Rolex? The answer is to be found as much in the watch as in its owner.

In the watch, technical supremacy is the reason. Rolex have been the foremost pioneers in the watch industry during the last half-century. The name

"Rolex" is a synonym for the highest quality ever to come from the hands of the most highly skilled watchmakers in Switzerland.

The other reason lies in the position these famous men occupy in the world. They must have a watch that measures up to this position, a watch with a high reputation for accuracy, a watch which reflects their standing and upon which they know they can rely in all circumstances—in fact, a Rolex.

The Unique Oyster "Twinlock" Winding Crown

Perhaps the most notable secret behind the OYSTER, this Rolex invention solved once and for all the problems of the watch's most vulnerable point. The "Twinlock" winding crown screws down onto the case itself, and is sealed internally, as well, by means of an extra threaded tube onto which the winding crown also screws. Very expensive to manufacture, it is the only one of its type in the world.

The miracle of the waterproof watch

No matter how much time and care may have been expended on a watch movement, no matter how many Accuracy Awards it may have won, it can never *stay* completely accurate throughout its working life unless it is perfectly protected from dust, dirt, sand, grease, perspiration, water and all the other external elements which can seriously damage it.

So when a Rolex watch is described as waterproof it means more than a watch that is impervious to water. It means a watch that is protected 100%.

Not so long ago 100% protection was regarded as a Utopian improbability, but one man, Hans Wilsdorf, founder of the Rolex Watch Company,

was convinced that it was possible.

In 1927, a young English secretary successfully completed a cross-Channel swim wearing a Rolex watch all the way. After this punishing test it was found to be working perfectly—and the world's first truly waterproof wrist-watch was born: the Rolex OYSTER.

Since that date many watchcase manufacturers all over the world have attempted to imitate the famous OYSTER case. But the Rolex OYSTER remains supreme. Why? Because Rolex in Geneva strictly control its manufacture by insisting that each and every OYSTER must be made entirely in Switzerland, with the same exacting standards of accuracy applying to both case and movement.

The watch that winds itself

Now that Rolex had succeeded in developing the world's first truly waterproof watch, they next began to turn their attention to something that watchmakers had been dreaming of for generations—the *selfwinding* watch.

To the layman, the chief advantage of the automatic watch is that the wearer does not have to think about winding it up. But to the watchmaker it means much more—it means even greater accuracy.

A watch that is wound by hand runs the risk of variations in tempo, due to uneven winding and consequent strain on the mainspring. In an automatic watch, however, the mainspring is kept always at the same tension and so the

tempo is even and unvarying, ensuring a high standard of accuracy.

It was in 1931 that Rolex patented a selfwinding mechanism—a swinging *rotor*, revolving freely in either direction, which wound the watch silently and automatically at the slightest movement of the wrist. This was the world's first really efficient selfwinding watch—the Rolex PERPETUAL.

As soon as the original patents expired, the entire watch industry again paid Rolex the compliment of adapting their invention. But Rolex already had a fifteen-year start, and constant improvement and research keeps the Rolex Perpetual in the forefront of all selfwinding watches to this day.

THE BIRTH OF THE "DAY-DATE"

Not content with a watch that was waterproof and selfwinding Rolex turned their attention to the *calendar* watch: a watch that showed the date in a neat window on the dial, magnified by a lens for easy reading. And after that, they added the day of the week *spelt out in full*. Both the day and the date change automatically and *instantaneously* on the stroke of midnight.

This new model, which was christened the "Day-Date," is the world's most handsome, waterproof, selfwinding, calendar Chronometer—the crowning achievement of Rolex of Geneva.

THE STORY OF ROLEX continued

Half a million Chronometers

Until 1951, a manufacturer could call any watch a "Chronometer." (An Officially Certified Chronometer takes about four times as long to make as an ordinary watch and must retain phenomenal accuracy under extreme conditions.)

Rolex have *NEVER* described any of their watches as *Chronometers* unless they first passed the stringent examinations of the impartial Swiss Institutes for Chronometer Tests. To do this, the watch movement must successfully undergo a series of rigorous tests which are carried out during fifteen days and fifteen nights, in five different positions and at three different temperatures.

In 1951, the Federation of Swiss

This letter, from the Swiss Institutes for Official Chronometer Tests, is proof of Rolex leadership and pioneering in the field of chronometric precision during the last 35 years.

Watch Manufacturers ruled that all movements *must* pass these tests before being sold as *Chronometers*. Since that date, less than 0.25% of the forty-odd million movements produced annually by the Swiss watch industry have obtained Official Timing Certificates.

The letter on the right shows that since 1927 Rolex have produced over 500,000 Officially Certified Chronometers—about 50% of the total production of the entire Swiss watch industry.

ATTESTATION

After verification of the reports of The Swiss Institutes for Official Chronometer Tests, we have ascertained that since the year 1927

Over 500,000
Official Timekeeping Certificates
for Wrist-Chronometers
have been obtained by the Firm ROLEX of Bienne and Geneva

4th June 1962

ASSOCIATION DES DIRECTEURS DES BUREAUX SUISSES DE CONTRÔLE OFFICIEL DE LA MARCHE DES CHRONOMÈTRES
La Président:

H. Schueiler

THE ROLEX RED SEAL

Until recently, the Red Seal was attached to every Rolex which had been recognized as an "Officially Certified Chronometer." Rolex are now raising their own standards even higher: henceforth no Rolex will be worthy of the title of "Chronometer" and bear a Red Seal unless it has obtained the very highest distinction for precision and quality from a Swiss Institute for Chronometer Tests: "Especially Good Results."

Culmination of the watchmakers' skill, the Rolex "Day-Date," described on the previous page.

To please the eye

It is significant that the Rolex design centre is based in Geneva, for Geneva has long been famous for elegance of styling. Rolex is proud to continue this tradition.

Rolex have produced exquisite ladies' watches, made from breathtaking diamonds, such as this prize-winning Ice Flower, inspired by the delicate tracing of morning frost on a winter windowpane. Their men's watches, too, are daringly different, like this new

model, "King Midas," sculptured with a classical purity of line from precious metals, and this 18-ct. gold pocket watch, "The Ascot," whose traditional simplicity is relieved only by the flawless diamonds and sapphires which surround the dial.

These are the designs that testify to the Rolex policy that a watch is as much a part of a man's or woman's wardrobe as it is an instrument for measuring time.

Trials and Triumphs

During the past thirty years, Rolex have equipped scores of important expeditions. The knowledge Rolex have gained from the reports on the behaviour of their watches, plus the results of their own laboratory tests, has enabled Rolex to develop new and revolutionary models for special purposes.

That is why Rolex watches have been to the highest point of the earth's surface, at the bottom of the deepest ocean chasm known to man, up in the stratosphere at speeds much greater than sound, in the arctic, the jungle and the desert. *No other watch has such a record.* Wherever men explore and experiment, their success, even their lives, will depend on their material. It is hardly surprising that they so often choose Rolex watches as part of their vital equipment.

Copyright: The Mount Everest Foundation

Rolex Oyster Perpetual "EXPLORER" watches were official equipment on the first successful Everest expedition when Sir Edmund Hillary and Sherpa Tensing were the first to conquer the world's highest peak. In the words of Sir John Hunt, leader of the expedition: "We have come to look upon Rolex watches as a vital part of high-climbing equipment."

Picture by courtesy of Pan American World Airways

This Rolex Oyster Perpetual "GMT-MASTER" was the first of its kind ever designed. By means of its twenty-four hour hand and its revolving outer bezel, it indicates the time in any two time zones on the earth's surface. Ideal for pilots, navigators, ships' captains and intercontinental travellers. It is the Official Timepiece of Pan American World Airways.

A special Rolex "OYSTER" was fitted to the *outside* of the bathyscaphe "Trieste" when it dived to a record depth of 35,798 feet—*nearly 7 miles!* The Rolex was still working perfectly when the "Trieste" returned to the surface after eight hours, having withstood pressures of nearly *seven tons per square inch!* This unique watch is now on permanent display at the Smithsonian Institute in Washington D.C.

Another "first" by Rolex of Geneva—the pace-setting Oyster Perpetual "SUBMARINER" was developed specially for deep-sea and skin divers, but thousands of others have found it the ideal watch for everyday wear. Extra robust, waterproof to 660 feet, it is a favourite with yachtsmen, fishermen, water skiers and all those fond of aquatic sports. Its revolving bezel, which was introduced as a means of measuring time elapsed under water, has commended it to all those who want a simplified stopwatch, as well as an accurate time-piece, on their wrists.

A special Rolex-built gauge, used in the laboratories of Rolex at Geneva for testing the effects on watches of pressures up to 600 atmospheres—the equivalent of *four miles* under the sea!

This expert watchmaker is typical of Rolex of Geneva; in his craftsmanship centuries of skill and experience, passed down through Swiss families for generations, have reached their culmination. His steady hand, his delicate touch, his long experience—these are the factors which impose a limit on the number of Rolex watches made.

Only too few

Only too few people can own a Rolex: because the production of Rolex watches is of necessity limited.

It is limited by the very high standards of the men who make them—by the Rolex policy that “only the best is good enough”—by the Rolex insistence that every part of an Oyster watch, *including the case*, must be made entirely in Switzerland.

Each and every component of a

Rolex watch is checked by men who have dedicated their entire lives to the industry and to whom watchmaking is not a job but an art. The “finesse” of watchmaking lies in the clear eye, the steady hand, the skill passed down through generations.

But Rolex’s vigilance does not end there, for almost as much care goes into the *distribution* of Rolex watches as goes into the making of them. For

only the finest jewellers all over the world are selected to handle Rolex—men who, by tradition, have the knowledge and skill to give a fine watch the attention it deserves.

So if you have to wait a little while for the Rolex watch you have chosen, please remember that it is because Rolex owe a debt to their reputation and that this debt can only be paid by quality and not quantity.

IN SERVICE EARLY 1964

Triumphantly swift, silent, serene

The VC10 is a plane of majestic power. It is triumphantly fast. Yet the VC10 is the quietest, smoothest plane you can fly in. For the power is in the tail. The four Rolls-Royce Conway jets are rear-mounted and you fly in the comfort and silence ahead of the power. This magnificent plane comes into regular scheduled service, early in 1964. And BOAC moves a clear six years ahead of any other airline.

Proved Rolls-Royce power from 4 Conway jets

BOAC was first with jets. Now they bring you the VC10 built by the British Aircraft Corporation. Its advanced Rolls-Royce Conway engines are developed from the experience gained in 26 million hours of jet service in the air. With a thrust of 21,000 lb each, the new Conway R.Co. 42/1s are the most powerful civil jet engines in the world.

For information and bookings consult your usual IATA Appointed Travel Agent or BOAC

Al-Hikma lads on their toes for a successful season

Basketball Team 1963 — 1964

BASKETBALL

The Blue and Gold of Al Hikma again made its presence felt on the basketball courts of Baghdad. After a late start the newcomers Ahmed, Armen, Farid, Nabil and Talal joined the holdovers from last year's squad, Emmanuel, Jamal, Salar and Shamuel to take on the Law School. Lack of height, experience and shooting spelled defeat for our team 53 - 38. These same defects showed up in the next game, but we managed to squeak by the Institute of Languages by the score of 37 - 33. With the prospects of another game with the Law School in view, out of temporary retirement came Basim, Edward, Hikmat and Samir. This sparked the team to an unexpected victory 52 - 47. The Arts College next fell victims to the men of Al Hikma by the scores of 49 - 36 and 57 - 51. This put us in the final playoff round robin with the Institute of Physical Education, the Engineering College and the Law School. These games were all played in the new indoor gymnasium of the Institute of Physical Education. Unfortunately, the new surroundings seemed more favorable to the opposition and we lost all three games. This gave us the fourth place out of the original nineteen teams in the league. The improvement of the team during the season augurs well for next year.

Front, right to left — Hikmat Basmachi, Armen Sossikian, Jamal Yusuf, Ahmed Jamil, Shamuel Yusuf.

Rear, right to left — Edward George, Farid Bashu, Emmanuel Francis, Samir Qattan, Basim al Umar, Salar Ghaffur. *Missing* : Nabil Shunniya and Talal Jaju.

Father Kelly coaches his team to victory

A Friendly Game with the College of Arts under the expert eye of their Coach, Behnam Basilius

Football Team 1963 — 1964

Rear row : Sargon Dick, Coach Mr. Seamus O'Cleiracain, Zia Ishaq, Kamal Dinkha, Ishu Gaddu, Fahmi Michael, Emmanuel Francis.

Front row : Captain Wilson Benjamin, Farid Bashu, Ahmed Jamil, Samir Qattan, Nuri Asker, Tuma Michael.

FOOTBALL

Al Hikma had a fair football season in the fall of 1963. Games were played with Adhimiya Club, Hormentmen Club, Arts College, Institute of Public Administration, Commerce College, and for a second time, Arts College. Our team won two games, tied one, and lost three. In the Spring Season we have been building strength for the next inter-collegiate tournament. We will miss three stalwarts from the senior class, Kamal Dinkha, Samir Qattan and Fahmi Michael. But we have a lot of power in Wilson Benjamin, Ahmed Jamil, Zia Ishaq, and Samuel Yusuf.

SCHOLARSHIP

Each year Al-Hikma University extends to Freshmen Students the opportunity to obtain a limited number of Scholarships. This is done through competitive examinations at the University in June. In addition to these examination results, the Government examination results, relative financial need, as well as character and conduct reports, are factors carefully weighed before Scholarships are definitely granted.

Scholarships available at present are :

The Calouste Gulbenkian Foundation
Scholarships

The Baghdad College Scholarships

The Holy Cross Scholarship

The Cardinal Cushing Scholarship

The Baldwin Scholarships

The Clos Scholarship.

Freshmen GULBENKIAN SCHOLARS : Fakhri Yono, Nazar Qashat, Hamid Attisha, Jack Sawdayi, Quraish Yusuf.

تجبة من العميد

ان تخرجكم من جامعة الحكمة الذروة عمل قد اقتضى وقتاً طويلاً وجهداً وافراً مستمراً ومساهمة اشخاص كثيرين .
الله تعالى هو الذي منحكم مواهبكم . ووالدوكم هم الذين ربوكم وضحوا بأنفسهم ليقدموا لكم فرصة لعلمهم هم انفسهم لم
يستمتعوا بمثلها . وكثيراً ما قام اقرباؤكم وأصدقائكم بمساعدتكم بألف طريقة وطريقة قد اصبحت نسياً منسياً . كما ان
اساتذتكم اجتهدوا في تثقيفكم ساعات طوالاً .
وان كنتم قد نلتم هذه المعاونة الجزيلة . فالواجب عايكم بدوركم ان تكرسوا مواهبكم لخدمة الآخرين . فاذا فعلتم
هذا فان افتخار عائلاتكم بكم عند التخرج سيستديم ويشاركها فيه جميع الذين يستفيدون من خدماتكم .
